Koch	Dr. Koch is an amazing teacher. Not only is he incredibly intelligent and a knowledgeable person - he is a kind human. He cares about his students and their success. His approach to education is one of delicate communication and invoking passion for learning. He once said in class something along the lines of, "A teacher speaks and evaluates what they said, a good teacher listens to his students and evaluates what they learned." This quote is not something I will soon forget.
Koch	Amazing professor, Loved this class and think it was very beneficial. Loved the small class and really think it elevated the learning accomplished in this class. Also very much enjoyed his teaching style
Koch	I absolutely loved this class. While I know Dr. Koch also teaches large lectures and this Honors class, I think his style can be as effective either way. He is extremely amiable and understands very well how to connect to his students to help them learn the information rather than memorize it only to pass the class. His class was my favorite of the semester and I loved going every week despite it being almost three hours long. Hes also very willing to ask his students questions to better understand how he can change his teaching style to better fit them.
Koch	Dr. Koch gets easily distracted but is a good professor. I learned so much about him and those around me. I signed up for this class because it seemed to be the most interesting FYE available when I picked it at orientation, but I really enjoyed it because it made me think and ask questions.
Koch	Dr. Koch was a great professor. I really came to love sociology because of him and this class. I do think he cares personally for his students. Although he had moments of being off-topic he managed to tie it into the lesson every time. This class is a class i will miss taking next semester.
Koch	Dr. Koch is one of the best teachers Ive ever had! He puts a lot of thought into all of his work and it definitely pays off. I always looked forward to attending class and have appreciated how much he cares about both his students and his work. He was very understanding when I was going through a rough patch this semester and made it a point to ask if I was okay which I truly appreciated. He is a great addition to the Texas Tech staff and I feel honored to have met this amazing person!
Koch	One of the best courses I have ever taken, I highly recommend it for all students.
Koch	Awesome teacher and taught the course with the right amount of humor and seriousness that makes a class fun. He will sometimes go on side tangents, but they are fun most of the time.

	<b>Question: Comments instructor or course</b>
Koch	Dr. Koch is a very very good teacher, he is good at keeping attention and really reaching home with students. I am very happy to have taken his class.
Koch	It was probably the most well organized and consistent class I have ever taken (speaking as a senior physics major). I really enjoyed Dr. Kochs stories that went along with the subject matter of the lectures. They helped me visualize, understand, and remember the subject matter. The only criticism I would have is that I wish there was a bit more variety in the test questions and not just mainly questions about which view point (functionalist, conflict, and interactionist) was being described.
Koch	great professor, loved the mind train express (you had to be in the class)
Koch	I througly enjoyed Dr. Kochs class, He is an excellent professor and a very intelligent and self-aware man. He is definitely Top 3 professors in my 3 years here at Texas Tech and you under no circumstances should fire or consider letting him go. He is worth every damn penny you give to him and many more on top of that. Use him as an example as to how to select new candidates for the professor, he is just that good. No negative remarks minus the fact that he has to listen t his department chair and follow rules that maybe shouldnt be there.
Koch	GREAT TEACHER THANK YOU
Koch	I loved this course!! Not only was it a valuable learning experiment, academically; Dr. Koch led me to explore things Ive never explored before and opened me to new perspectives and points of view.
Koch	What an amazing man and professor is truly one of my favorite teachers and classes ever very good at getting to the truth in a story telling way super profound loved it
Koch	I think that Dr. Koch is passionate about what he teaches but he sometimes let his past and personal beliefs override what he was supposed to be teaching. He would go on unnecessary tangents. I think he preached more than he taught. He let his past as a preacher interrupt class sometimes. I think he made some questionable comments from time to time. I think most of his lectures could have been half the time he took. His tests were also all the same questions and very repetitive so I dont feel like I learned anything about actual sociology I just learned about three views.
Koch	This instructor taught me a lifetime of knowledge in only a few weeks. I liked him although he could be very complex at times.
Koch	Great instructor! He was able to bring up touchy subjects in order to make us relate to the concept he was teaching us, all without making anyone feel offended or feel like their opinion was less than. I would take any class of his! I also love the music and introduction he plays at the beginning of class. He motivated me throughout the entire semester.
Koch	He was a good teach learned a lot in the class and about myself in general.

Koch	I absolutely loved this class and the professor, I dont make the overall best test grades but I enjoy going to class and listening to the lecture
Koch	Enjoyed his lectures and was specific to each unit we were learning.
Koch	The professors lectures were comprehensive and easy to follow. The many extra credit opportunities and exam reviews make it hard to not have a good grade in this course. Overall, I really enjoyed this course and would recommend others to take it.
Koch	The best professor I have had in my experience at Texas Tech. Was knowledgeable, engaging, and just an overall awesome class to take.

Koch	The instructor sometimes went off topic.
Koch	Dr. Koch did an amazing job with this class. Everything that was supposed to be taught was and I always felt well prepared for exams. Dr. Koch also does a great job of making memorable analogies, and I feel this content will stick with me in my life.

Koch	Dr. Koch is alot of fun and he teaches very effectively. Would recommend to any college student.
Koch	I love everything about Professor Koch. When choosing my classes in the summer and seeing that I had to take a class like Sociology, I was not at all excited. But I am truly so glad I did. I dont even know how to describe how much I enjoyed this class. Professor Koch made me want to do anything BUT miss this class, and not just because he chose random days to give the passwords to extra credit quizzes. But because I felt like missing one class would mean I was missing out on some of the most important life lessons. I loved that he always tried to make each class fun and intriguing, whether it was starting each class off with a magic trick and a dad joke, or telling funny stories that correlated perfectly with what we were learning that day. I mean he almost made me change my major towards sociology, ALMOST. Jokes aside, I would recommend this class to anyone and everyone, its just too bad I know almost no one who goes to Texas Tech (sorry). I constantly heard people complaining about how terribly their sociology class was going(different teacher of course), commenting on how boring it was, that their tests were so hard (which its not that ours were any easier, I just loved the material and paid attention in class), and I just thought about how lucky I was to have the absolute best teacher. Hes truly the best, he deserves everything, protect him at all costs. Thank you.
Koch	I really liked this class.
Koch	Very eloquently spoken very wise. I want to be him. He is someone I would look up to and have a lot of respect for. Strive for honor.
Koch	It was different from the course I took in high school but of course cause it's college
Koch	Dr. Koch is an exceptional instructor willing to understand students points of view and thoughts. He made the class enjoyable by adding parts of his personality and insight into his life during lectures. He was engaging with students and allowed students to understand and observe life from a new perspective.
Koch	I loved this class. He was very honest with his beliefs and still took the time to understand ours.
Koch	He is the best college professor I think I will ever have. I never get bored. He always has our attention. Also with this course I have also learned a lot of life lessons and the value of things. He is an amazing professor.
Koch	Dr. Koch is definitely up there with the best teachers Ive ever had. I really enjoyed his style of teaching, and he made every lecture fun, engaging, and thought-provoking.
Koch	I dont have anything much to say, very solid professor.

Koch	I love this class, he's very fun and always makes jokes. His lectures are interesting and entertaining and always make me smile. He's a great guy and really cares about his students. I feel bad because he makes jokes but sometimes it's too early in the morning to laugh so I hope he doesn't think we don't find him funny because I definitely do. Great professor and he deserves the best future!!

Koch	Really enjoyed the class and his style of teaching. He is very understanding and helps.
Koch	The instructor went off topic in class way too many times
Koch	Overall great person, and made sociology a great subject to learn. His way of teaching was phenomenal all semester along.
Koch	Dr. Koch was a good teacher, but the lectures often drifted to more personal anecdotes and did not follow the courses content. I found myself skipping the lectures due to the fact I was gaining nothing from them, and often was just listening to an aged gentleman lament and reminisce about his spouse. This is understandable after a loss but the lectures often mentioned her and it became increasingly uncomfortable. There was also a heavy political undertone to the lectures and questions on the test that exhibited bias of his own feelings which I felt breached the content and as such made the work not true to the source content we were supposed to be learning. Overall, while a good professor, I believe he should seek retirement.
Koch	Dr. Koch is an amazing professor and incredibly intelligent, his teaching style is effective as every time I left class I felt greatly impacted. He gets the class eager to learn and does his job very well! I took this class as an elective and now want to pursue more sociology because of Dr. Koch.
Koch	Dr.Koch does an excellent job teaching due in part to his excited attitude and deep care that he wants to share the knowledge and experience that he has gained.
